Really well made wild type brindle bull that passes that flashy color onto his progeny. This bull really adds horn and body mass to cows that may be lacking. ( would have been 77" TTT had he not lost 4 inches) He is a great bull that will be an outcross to most cows!

**Total Horn:** 84.0000 on 01/28/2021  
**TTT:** 73.0000 on 01/28/2021
