His sire Mountain Diamond was 65" tip to tip and his dam Lady Snake had over 60" tip to tip. Today both are deceased, but their genetics live on in MD Seneca Diamond. The sire to Mountain Diamond was syndicated for \$1,000,000. As impressive as that is the sire to Lady Snake is also the sire to Watson 83 the first bull to ever produce two 70" tip to tip sons. "The horns are strong with this one!!!" This is a beautiful blend of WR and Butler
